

Orphan (SARIS - Beyond The Rainbow)

Verse 1

So I dreamed about you
Lonely eyes I see
In every night's eternity
Same old memories

Verse 2

I keep staring
... at this closing door
A field of dreams
But nothing's really sure

Verse 3

A motherless child
... is crying
Shadows will fall
But I can't open any door

Bridge

Where are you now, where have you been?

Chorus

On the far side of this town
Where the rain is falling down
Somebody cries
With tell-tale eyes
It's in my memories

C-Part

All my memories will leave, for sure
A scary tale needs to be heard
I will never find an answer to believe
Disappearing memories
Why should I take the blame?
