

Time Machine (SARIS - Beyond The Rainbow)

Verse 1

I wanna go back
To the way we used to be
Holding back this time
Holding back every moment

Verse 2

Back in time
I stood at the horizon
All alone, all alone
Like a tear in the ocean

Verse 3

Take me back
To the days when I was younger
Crazy times passing by
Bring it back, time machine

Bridge

Time machine, time machine

Chorus

Can you cross the universe?
Where time stands still
In your sweetest dreams
Another show, another place to be
Walk the line using a time machine
