Off World

Verse

I Realise the walls we build are just a prison of our own design
we want to lock out evil but all we do's just lock all inside
the folly of our race is that we're losing and we're running out of time.
tell me where to go cos I don't know

Verse

paranoia breeding on the fallacy of paralytic minds
living for a leader who is feeding on the poverty and grind,
trying to stop bleeding out, the doubt and all the reasons to resign
tell me what to do cos I am through

Chorus

We're going off world, We're going off world
We're going off world, Off world

Verse

breathing in the dust is all that's left of fifty thousand years of toil.
what's the point of victory there's nothing left to win and no more spoils.
how can I escape the weight and clean the slate that traps me on this coil
tell me who to be if I can't be free.

Chorus

We're going off world, We're going off world
We're going off world, Off world

C-Part

We know the time has come, we know our work is done.
We gave it everything we had,
There was so Much to bear so much to share
And now we're climbing Heaven's stairs
We free Ooh tomorrows people we will always be.

We wait for no one we are done, the chance was taken courses run.
Gather yourselves and your loved ones today,
We are done and we're breaking away.

We've done our time, we toed the line.
We're reaching out for the divine
On with the show on worlds we don't know.

Verse

what started out as fiction has become the only story that is told
how could we ever get here we're so obviously lost along the road.
living on the rock, we breathed its life but dust to dust was in the code
tell me how to leave we must believe.

Chorus

We're going off world, We're going off world
We're going off world, Off world
